

**S**MART SWITCH is a free energy conservation program by SPU. When you participate in SMART SWITCH, you allow SPU to activate a small remote-control device that is installed outside your home near your air conditioner's condensing unit. We expect to activate the switch approximately 10 -15 days each summer, but only when demand is at its highest.

### SMART SWITCH is convenient

A licensed electrician installs the SMART SWITCH device. You don't even have to be home for installation.

### SMART SWITCH is cool and comfortable

Most people can't tell when SMART SWITCH is cycling.

### SMART SWITCH is rewarding

You will receive a \$10.00 credit on your SPU bill for each month you're enrolled in the SMART SWITCH program. If you're enrolled for the program year, which is June through September, that's a total of \$40.00!

In addition to receiving an incentive for participating in the SMART SWITCH program, you could save money through reduced monthly summer electric usage in the event the switch is activated.

**SMART SWITCH  
offers summer savings  
of \$10.00 each month.**

(June through September)

## Air Conditioner Maintenance

- ▶ Clean or replace furnace filters once a month.
- ▶ Don't set the thermostat at a colder than normal setting. The air conditioner will not cool the house faster but will exceed the desired temperature and result in wasted energy.
- ▶ Don't place lamps or other heat-generating appliances near the thermostat. This causes the air conditioner to run longer than necessary.
- ▶ Have your air conditioner unit checked and tuned when you have your furnace serviced.
- ▶ Clean and vacuum the grills, coils, and cooling fans on the outside unit to keep them clear of leaves and other debris.

**Yes! I want to sign-up for SMART SWITCH.**

### Details:

- ▶ To qualify, you must be an SPU residential customer with central air conditioning.  
Renters, and those who live in an apartment or condominium, or have a window or wall air conditioner do not qualify for SMART SWITCH.
- ▶ The SMART SWITCH program requires a minimum commitment of one year. You will be re-enrolled each year unless you contact Shakopee Public Utilities and request to be removed from the program.

I would like the SMART SWITCH installed on my electric air conditioner.

- Install my SMART SWITCH anytime.
- Please call me for an appointment.

## SMART SWITCH

Join more than 1200 residential customers already conserving energy with SPU's SMART SWITCH.

### It's good for you

Stay cool and comfortable while saving money. You'll receive a credit of \$10.00 for the months of June, July, August, and September—that's a total of \$40.00!

### It's good for us

During hot summer days demand for air conditioning increases, pushing demand for electricity to peak. With SMART SWITCH, you allow us to manage demand on the electrical system.

### It's good for the environment

SMART SWITCH helps preserve natural resources for future generations.

To enroll in SMART SWITCH, simply complete the enrollment form, and return it to:

Shakopee Public Utilities  
 PO Box 470  
 Shakopee, MN 55379-0470

Call Shakopee Public Utilities at 952-233-1524 or visit [www.shakopeeutilities.com](http://www.shakopeeutilities.com) to learn more.
